Approved For Release 2000/08/21 : CIA-PDP33-02415A000500320021-7

SAPC 25019-R Copy 6 of 6

14 March 1958

HEMORANDUM FOR: Project Director

SUBJECT

t Tracking of 355

25X1A

25X6

25X6

25X6

had been tracked on the outbound leg from the by U. S. and radars. He stated that his source at the indicated they had tracked 355 quite accurately to include altitude. This flight was made without the trapese which may be the reason it was tracked without difficulty.

2. This office is looking into this further and will advise you of any subsequent developments.
